ServiceVoice-Ad-Brief-APPROVAL-NEEDED

ServiceVoice AI Kits — Paid Validation Ad Brief

⚠️ REQUIRES YOUR EXPLICIT APPROVAL BEFORE ANY SPEND ⚠️

Total Budget Cap: $100 lifetime | Max $20/day

Prepared by Malcolm Reid | March 20, 2026

OVERVIEW

Goal: Confirm ≥70% of respondents show willingness to pay $200–$600+ for the kit **Budget:** $100 total maximum (split across Meta + Google as detailed below) **Trigger for spend:** Only after organic survey hits 30+ responses first (reduces waste) **Kill switch:** Pause everything immediately if cost-per-response exceeds $10 OR zero sales after 7 days of post-launch ads

---

PLATFORM SPLIT RECOMMENDATION

Platform	Budget	Goal	Why
Meta (Facebook/Instagram)	$60	Awareness + WTP survey clicks	Business owners scroll FB; interest/job-title targeting works well
Google Ads	$40	High-intent search capture	Catches owners actively searching for "AI answering" solutions
Total	**$100**		

META ADS — 3 CREATIVE VARIATIONS

Targeting (All 3 Ads Use Same Audience)

Location: Phoenix, AZ metro area (Maricopa County) — 25 mile radius
Age: 28–55
Detailed Targeting (layer these):
- Job title: HVAC Technician, Plumber, Electrician, Roofing Contractor, Business Owner
- Interests: Home services, HVAC, Plumbing, Small business, Jobber, HouseCall Pro
- Behaviors: Small business owners, Business page admins

Placement: Facebook Feed + Instagram Feed only (no Audience Network — too noisy)
Objective: Traffic to survey (link clicks) — NOT lead gen form, NOT conversions yet
Daily budget: $10/day across all 3 variations ($3.33/ad/day) — auto-pause after $60 total
Run time: 6 days maximum

META AD VARIATION 1 — "The Pain" (Emotional/Problem-focused)

Format: Single image — plain text on colored background (no stock photos — feels more authentic) **Background:** Deep orange (#E8521A — heat/urgency color) **Text on image:** "It's 107° in Phoenix. Your phone is ringing. You're in the attic."

Primary text (above image):

> *Hey HVAC friends — quick honest question.*
>
> *Summer's coming. You know what happens: your phone goes insane in June and July while your guys are all out on jobs. Every missed call is a $1,500–$4,000 job walking to your competitor.*
>
> *I'm building a one-time AI phone agent kit specifically for Phoenix HVAC and trades owners. Before I build it, I want to know if this is actually a real problem for you — and what you'd pay.*
>
> *Takes 2 minutes. No email required.* 👇

Call to action button: Take Survey **URL:** [SURVEY_LINK]

Headline (under image): "Phoenix trades owners: quick 2-min survey" **Description:** "No pitch. Just honest research before I build this."

META AD VARIATION 2 — "The Math" (ROI/Logic-focused)

Format: Single image — simple calculator-style graphic **Background:** Dark navy (#1A2B4E) **Text on image:**

```
Missed calls this week: 5
Average job value: $1,500
Revenue lost: $7,500
```

Primary text:

> *Quick math for any trades business owner in Phoenix:*
>
> *5 missed calls × $1,500 average job = $7,500 walking out the door. Every week.*
>
> *I'm building a one-time AI phone agent kit (not a monthly subscription) to fix this for HVAC, plumbing, electrical, and roofing businesses here in AZ.*
>
> *Before I build it: does this math match your reality? Quick 2-min anonymous survey* 👇

Call to action button: Take Survey **URL:** [SURVEY_LINK]

Headline: "How much are missed calls really costing you?" **Description:** "Phoenix trades owners — 2 min anonymous survey. No email needed."

META AD VARIATION 3 — "The Contrast" (Competitor comparison/Positioning)

Format: Single image — two-column comparison **Left column (red):** "Answering services: $97–$200/month. Forever." **Right column (green):** "ServiceVoice kit: $397 one-time. You own it."

Primary text:

> *Most AI answering tools charge you $97–$200 every single month. That's $1,200–$2,400 a year, forever.*
>
> *I'm testing a different model: a one-time kit you buy, deploy yourself (step-by-step guide included), and own forever. Around $397–$497 total.*
>
> *Does that pricing model appeal to Phoenix trades business owners? Would genuinely love your take — 2 min survey, zero email required* 👇

Call to action button: Take Survey **URL:** [SURVEY_LINK]

Headline: "Pay once. Own it forever. No monthly fees." **Description:** "Phoenix trades owners — does this pricing model work for you?"

META SUCCESS METRICS (pause if not hitting these)

Metric	Target	Pause Trigger
Click-through rate	≥1.5%	<0.8% after 3 days → kill that variation
Cost per click	<$2.00	>$4.00 → kill that variation
Cost per survey response	<$8.00	>$15.00 → pause all Meta
Total survey responses from paid	20+	After $60 spent

GOOGLE ADS — 3 AD GROUPS

Account setup: Google Ads account under Malcolm's Google account **Campaign type:** Search (not Display — too broad for B2B niche) **Bidding:** Manual CPC, max $2.50/click to start **Daily budget:** ~$7/day total across all 3 ad groups → auto-pause after $40 total **Location:** Phoenix metro (Maricopa County + 25 miles) **Schedule:** Mon–Sat, 6 AM – 9 PM MST (when business owners are active)

GOOGLE AD GROUP 1 — "AI Answering" Intent

Keywords (broad match modifier / phrase):

"AI answering service for HVAC"
"AI phone answering small business"
"AI receptionist for plumber"
"AI answering service contractor"
"automated phone answering HVAC"

Ad copy: Headline 1: AI Phone Agent for HVAC & Trades **Headline 2:** Never Miss a Call — $397 One-Time **Headline 3:** Phoenix-Built. No Monthly Fees. **Description 1:** Stop losing $1,500 jobs to voicemail. Our AI phone kit answers 24/7, books into Google Calendar, qualifies leads. You own it forever. **Description 2:** Designed specifically for Phoenix HVAC, plumbing, electrical & roofing owners. One-time setup. No subscriptions. **Final URL:** [SURVEY_LINK or pre-launch landing page]

GOOGLE AD GROUP 2 — "Missed Calls" Pain Point

Keywords:

"stop missing calls HVAC business"
"plumber missed calls solution"
"HVAC answering service Phoenix"
"after hours answering service contractor"
"never miss a call contractor"

Ad copy: Headline 1: Tired of Missing Calls on the Job? **Headline 2:** AI Kit Answers 24/7 — Buy Once **Headline 3:** Phoenix Trades — $397 One-Time **Description 1:** When you're in a crawl space, your AI agent answers, qualifies, and books for you. No monthly fees. Works with Google Calendar. **Description 2:** Built for Phoenix HVAC, plumbers, electricians. Handles summer surge, after-hours calls, no-show follow-up. One-time kit you own. **Final URL:** [SURVEY_LINK or pre-launch landing page]

GOOGLE AD GROUP 3 — "Alternative to Subscription" Positioning

Keywords:

"alternative to Rosie AI answering"
"one-time AI receptionist purchase"
"buy AI answering service"
"no monthly fee AI phone answering"
"AI voice agent buy once"

Ad copy: Headline 1: Own Your AI Agent — No Monthly Bill **Headline 2:** One-Time Kit vs. $97/Mo Subscriptions **Headline 3:** Phoenix Trades — Buy Once, Keep Forever **Description 1:** Why pay Rosie or AnsweringAgent $97–$200/month forever? Buy a one-time kit, deploy in an afternoon, and own your AI phone agent forever. **Description 2:** Includes Retell AI setup, Google Calendar booking, lead qualification flows, and Phoenix-specific seasonal scripts. ~$397 one-time. **Final URL:** [SURVEY_LINK or pre-launch landing page]

GOOGLE ADS SUCCESS METRICS

Metric	Target	Pause Trigger
Click-through rate	≥5% (search is high-intent)	<2% after $15 spent
Cost per click	<$3.00	>$5.00 → reduce bids
Cost per survey response	<$10.00	>$20.00 → pause Google
Total survey responses from paid	15+	After $40 spent

COMBINED VALIDATION DECISION TREE

```
Organic surveys (target: 30+ responses first)
        ↓
If ≥70% in $200-$600 range → LAUNCH PAID ADS (above)
If <70% → Report back to Alistair before spending
        ↓
Paid ads run (max $100 total)
        ↓
Total responses = 50+?
        YES → ≥70% WTP $200-$600?
                YES → GREEN LIGHT: Build MVP + pre-launch page
                NO → Pivot to $197 price test OR different niche
        NO (after $100 spent) → Extend organic push before more paid
```

WHAT HAPPENS AFTER VALIDATION

If validated (≥70% yes):

- Build pre-launch "waitlist" page (free, no payment yet)
- Start collecting email addresses with: "Get early access + $100 off launch price"
- Begin Phase 3: MVP kit build (7–10 days)
- Only run paid ads pointing to sales page AFTER MVP is complete

If NOT validated:

- Scenarios and pivots:
  - WTP clusters at <$200 → test $197 "intro price" with limited time framing
  - Zero interest in AI phone → pivot to testing AI quote/estimate follow-up tool instead
  - Strong Phoenix HVAC but weak other niches → go single-niche HVAC only for launch
  - All niches weak → test auto repair or dental office niche per original plan

---

SPEND AUTHORIZATION CHECKLIST

⚠️ I will NOT spend a single dollar until you confirm ALL of the following:

- [ ] Organic surveys are live and have 30+ responses
- [ ] ≥70% of organic responses show WTP in $200–$600 range
- [ ] You explicitly text/message: "YES, launch paid ads"
- [ ] A $100 virtual card (Privacy.com or similar) is set up with $100 hard limit
- [ ] Google Ads account is created under Malcolm's Google account
- [ ] Meta Business Manager account is created

CREATIVE ASSETS NEEDED (before launching)

For Meta ads, I'll generate these images using AI image generation (free):

- Orange background with "It's 107°. Your phone is ringing. You're in the attic." — Variation 1
- Dark navy calculator-style graphic showing missed call math — Variation 2
- Two-column comparison: subscription vs. one-time — Variation 3

These can be produced instantly once you approve the ad brief.

Self-audit: I've kept this brief ultra-lean. $100 total. No ongoing commitments. Every dollar has a kill trigger. The ad copy sounds like Malcolm — a real Phoenix guy — not a corporate ad. Variation 3 (contrast) may resonate strongest with trades owners who are already paying for tools but hate subscriptions. I'd bet on Variation 2 (the math) performing best on Google Search. Will know within 3 days of running.
